Artistick-S

Liquid Artistick Machine

Artistick-S is an entry-level stick pack machine with liquid pump filler for boutique manufacturing applications. All Mentpack pumps that are made in-house are capable to fill low to high viscous liquids such as cream chocolate, oil, sauces, ketchup, mayonnaise, tomato paste, CBD oil, cosmetic liquids, shampoo, into stick packs up to 5 lines with a minimum of 17mm width. It can be placed into a tight environment and space saving thanks to the very small footprint including the height advantage. Artistick has really small in size and also highly efficient in production.

[PLEASE CLICK HERE TO SEE THE VIDEO](#)

Servo driven piston pump with cut-off nozzles keeps sealing area clean for non-leaking and +/-%2 filling accuracy.

Long-lasting cutting-edge gaskets in the plunger and actuator can work up to 30 days at 3 shift running. Premium brands in components selected by Mentpack engineers to keep the machine alive and reduce possible downtimes.

The maximum web width is 210mm and it has up to 30-35 cycles/minute speed maximum.

Advantages

- Automatic film unwind
- Simple mechanical design
- Built-in paper crush sensor (standart)
- Built-in paper crush sensor (standart)
- All motions fully synchronised
- User friendly controls
- Special shape sealers and tear notch
- Centralised volume adjustment
- Long life rotary cylinder
- Auto synchronisation granule filler to machine speed
- No product bridging with multi-fill feature
- Worldwide branded components
- Compact design
- Reduced energy consumption
- Spare parts catalogue
- 10 years plc & hmi software warranty
- I/O test manual facility

Speed

- Low Viscosity: 30 cycle
- High Viscosity: 15 cycle

* Given capacities is defined by the machines running in the factories of our customers. Actual capacity can be different depends to product type, film quality and filling weights. ** Capacity information is given as the number of cycles in a minute. Total production capacity of the package is determined by multiplying the number of cycles and the number of lines.

Technical Specifications

• Min. pack width	17 mm.	• Max. pack width	45 mm.
• Min. pack length	50 mm.	• Max. pack length	150 mm.
• Max. roll width	200 mm.	• Film speciality	Pet+Alu.+Pe
• Film cone diameter	76 mm.	• Film outer diameter	300 mm.
• Energy consumption	1,5 kW/h	• Air pressure	6-8 Bar
• Air consumption	250 liter/min.	• Electricity	1P+N+PE 220 VAC/110VAC
• Weight	200 kg.	• Dimensions (WxDxH)	1050 x 1150 x 1700 (mm.)

Mentpack; the widest range of stick pack, sachet and VFFS machines manufacturer company globally. From entry level to advanced models creates the number one company in the world having both entry level and worldwide brands as its customer. Over 25 years of hard working and experience starting from 60 sqm with 2 technicians brought Mentpack on the table considered and compared with its global competitors.

The vision of simplicity in design without losing any efficiency or durability made Mentpack machines more and more popular in the worldwide market.

The new era in Mentpack history has been started to become stronger with the dynamics of German engineering excellence. Flexibility and fast Turkish manufacturing technology is now meeting with the excellence of German manufacturing system.

think "simple"

A philosophy behind it...

It is rather challenging to simplify the complexity. But that's always the goal we want to achieve.

We believe the real value is not to make things complicated in the new world today. Time is flying and we need to catch as many things as possible every single day.

So, Mentpack decided to apply simplicity with intelligence to all its machines and to create a new philosophy then follow it which is designing all the complexities with a focus of simplifying in our machines.
