CORPORATE PROFILE

THINK "SIMPLE"

think "simple"
A philosophy behind it...

It is rather challenging to simplify the complexity. But that's always the goal we want to achieve.

We believe the real value is not to make things complicated in the new world today. Time is flying and we need to catch as many things as possible every single day.

So, Mentpack decided to apply simplicity with intelligence to all its machines and to create a new philosophy then follow it which is designing all the complexities with a focus of simplifying in our machines.

Mentpack; the widest range of stick pack, sachet and VFFS machines manufacturer company globally. From entry level to advanced models creates the number one company in the world having both entry level and worldwide brands as its customer. Over 25 years of hard working and experience starting from 60 sqm with 2 technicians brought Mentpack on the table considered and compared with its global competitors.

The vision of simplicity in design without losing any efficiency or durability made Mentpack machines more and more popular in the worldwide market.

The new era in Mentpack history has been started to become stronger with the dynamics of German engineering excellence. Flexibility and fast Turkish manufacturing technology is now meeting with the excellence of German manufacturing system.

HISTORY

WE ARE CHALLENGING WITH OURSELVES TO BE IN PROUD OF THE PROJECTS WE HAVE DONE

At early beginning, the company was in service for the pharmaceutical industry based on former experience. This business activity was in between from 1993 to 1996.

After a short time, local manufacturing of packaging machine is requested by the existing customers. As a result of this demand, the company is decided

to manufacture its own machines. Mentpack made its first machine in 1996 with a sachet packaging machine.

Since then, we are challenging with ourselves to be in proud of the projects we have done.

MACHINE RANGE

€

Artistick
ISM 400
VB-Mini

- Minimised architecture
- SS body as standard
- Suitable for low volume of production
- Limited capability
- Fits for startup projects
- Market trial production size

€ €

SPM 320
ISM 600
CSM 600
VB

- Optimised achitecture
- SS body as standard
- Suitable for mid volume of production
- Industry standards capability
- Fits for any size of companies

€ € €

SPM 800/1200
MSM 800/1200
CSM 1200
VB+

- High-end architecture
- SS body as standard
- High volume production
- Expanded capability
- Secondary packaging availability
- Spesifically modified for your production culture

BEST CONFIGURATION FOR YOUR NEEDS

SCOPE OF PRODUCTS

“WE HAVE RE-DESIGNED ARTISTICK FOR MORE DURABILITY AND MORE EFFICIENCY BY INCREASING THE SPEED”

Area of activity

Mainly focused on the following industries; dairy, beverage, confectionary, industrial kits, snacks and cereals, cosmetics, pharmaceuticals, pet foods, nutraceutical, coffee and creamer, olive oil, dry yeast, nuts, legumes, detergents, spices, food supplements, tea, ice pop, salad dressings, sauces, sanitizer, soup mix, alcohol swab, refreshing towel.

Mini-series packaging machines “Artistick”

Since 2011 we have launched our new series “Artistick” as an option for the start-up companies, trial products and low volume of production needed companies.

After several years, we have seen the gap between our Artistick series and standard models. Then we have re-designed Artistick for more durability and more efficiency by increasing the speed.

Stick Pack Machines

- Granule filler
- Auger filler
- Liquid filler

Sachet Machines

- Granule filler
- Auger filler
- Liquid filler

VFFS Machines

- Multihead scale
- Auger filler
- Liquid filler
- Volumetric filler

Tailor-made Machines

- Bespoke shaped packaging machines
- Dosing equipments

R&D - DESIGN RULES

- Continuous research and development
- Keeping the simplicity without compromising on performance
- Durable architecture
- Out of the usual design for easier to use in operation
- Proven components choosing since design process
- Continuous interaction with customers and operation responsible
- Focusing on customer needs rather than conventional methods
- Taking into account of each team member’s opinion to improve every single detail

"WE ARE NOT JUST SELLING OUR PRODUCTS. WE ARE WORKING FOR YOUR PROJECTS AS IT'S OURS"

Our main objective is to be with you until your project has been successfully done.

Instead of slow progress of sales, we response in 24 hours and do not force to keep conventional communication methods in sales process.

Guaranteed supply of mechanical spare parts for 10 years back by knowing importance of technical archiving.

We definitely know the importance and value of time. This is the reason that our service team is available 7/24.

The machines are equipped with Industrial VPN connection via Internet for fastest diagnose of unexpected problems.
